AGM

The current committee was voted en bloc to continue.

Meeting.

Correspondence

The meeting was interested in the invitation to Upton Cressett Hall & gardens. A suitable date was discussed and Pam agreed to try to arrange a date in early June for a group to visit.

Ed Andrews has sent another e-mail requesting our help with information and photos of Potter's Loade Ferry, Miner's Bridge being built, Miners Albert Davies, Trevor Jones, Frank Jones, Alfred Head.

It was felt that most of our articles had already been borrowed by Andrea Edwards for the Mining Heritage Displays and we were unlikely to have very much more that had already been seen.

Stuart said that he had a few photos of the Country Park before it was developed.

School Log Books

Margaret S. wants to be given the task of transcribing these. This created discussion about data protection and it was felt that the permission of the headmaster would be needed before they could be published on our web-site. Further discussion resulted in the uncertainty of whether his permission would be sufficient, It was agreed that Margaret could borrow the log books to transcribe them but not to publish at present.

Finance

Stuart reported that our balance stands at £977.64

Meetings time:

It was agreed that in future our meeting would start at 7.30 instead of
